Module Description

In this Thematic Unit, students will study concepts-definitions of program evaluation, the differences between research and evaluation and theoretical orientations of program evaluation through a historical review. They will, also, study alternative approaches/models that can be used in the evaluation of programs, including program modeling or the technique of structured hierarchical decomposition, the capabilities-weaknesses of these approaches, issues related to resistance and conflict resolution in evaluation, as well as the collection of evaluation information through the design, sampling and costs in relation to the data sources and methods, analysis and interpretation.

Grading Rules and Assessment methods

- Students are evaluated with 9, if they earn 90% of the possible grade, i.e. $90\% \times 10 = 9$, etc.
- Passing rate
 - 50% of the Assignments
 - 50% of the Interactive Activities
 - Students are allowed to participate in the final exam of a Module if they have overall earned the minimum grade ($\geq 50\%$) in both their Assignments and Interactive Activities
 - 50% of the Final exam

If a student earns a grade with decimal points, then it is rounded to the nearest half unit.
